Business Update

The Chemical Development business continued to drive growth reflecting good underlying performance. The discovery services business also saw good traction especially in discovery biology.

During the quarter, Syngene entered into a multi-year development and manufacturing relationship with Zoetis, a world leader in animal health.

The Company also expanded and extended its ongoing collaboration with Bristol-Myers Squibb till 2026 that will see the addition of a new facility to support its future research and development operations.

Syngene's biologics manufacturing capabilities gained a significant boost with the commissioning of its state-of-the-art Biologics Manufacturing Plant. The facility has three single use bioreactors with a capacity of 2000 Ltr each. It also has two upstream suites that will enable parallel operations and one downstream train with post-viral segregation. The plant can undertake manufacturing of clinical as well as commercial supplies.

It also started construction activities at its upcoming API manufacturing facility in Mangalore, Karnataka. The facility is on track to be operational in 2019.

During the quarter, the Company received Rs. 61 Cr towards the second tranche of insurance claim for the S2 facility that was affected due to the fire incident last fiscal.
