

Syngene

Putting Science to Work

Investor Presentation

April 2026

Safe harbour

Certain statements in this release concerning our future growth prospects are forward-looking statements, which are subject to a number of risks, uncertainties and assumptions that could cause actual results to differ materially from those contemplated in such forward-looking statements.

Important factors that could cause actual results to differ materially from our expectations include, amongst others general economic and business conditions in India, business outlook of our clientele and their research and development efforts, our ability to successfully implement our strategy, our growth and expansion plans and technological changes, changes in the value of the Rupee and other currencies, changes in the Indian and international interest rates, change in laws and regulations that apply to the Indian and global biotechnology and pharmaceuticals industries, increasing competition, changes in political conditions in India and changes in the foreign exchange control regulations in India.

Neither the Company, nor its directors and any of the affiliates have any obligation to update or otherwise revise any statements reflecting circumstances arising after this date or to reflect the occurrence of underlying events, even if the underlying assumptions do not come to fruition.

Q4 FY26 Highlights

Q4 and FY26 performance

Operating Highlights

- **ADC Platform Expansion:** Commenced operations at the ADC discovery laboratory during the quarter, complementing the recently added GMP bioconjugation suite and establishing end-to-end ADC capabilities from discovery to manufacturing
- **Quality & Regulatory:** Completed 14 audits during the quarter (FY total: 85) and obtained Good Clinical Practice – National Accreditation Board for Testing and Calibration Laboratories (GCP-NABL) accreditation, reinforcing adherence to globally recognized standards for clinical research and data quality
- **Sustainability & ESG:** Included in the S&P Global Sustainability Yearbook 2026, ranking in the top 10 life sciences companies and top 9% globally; also recognised as an ‘Industry Mover’ for the highest year-on-year improvement in its Corporate Sustainability Assessment score
- **Key management changes:**
 - Kiran Mazumdar-Shaw transitioned from Non-Executive Chairperson to Executive Chairperson, effective 1 April 2026, for a five-year term
 - Siddharth Mittal appointed Managing Director & Chief Executive Officer, effective 1 July 2026, succeeding Peter Bains. He joins from Biocon Limited, where he served as Managing Director and CEO
 - Maninder Kapoor Puri appointed Chief Human Resources Officer and Executive Committee member, effective 1 May 2026, and Abhijit Zutshi appointed Chief Commercial Officer and Executive Committee member, effective 1 May 2026; both previously held leadership roles at Biocon

Q4 FY26 Financial Highlights

Revenue from Operations

Rs 1,037 Cr (2% Y-o-Y)
~USD 112 Mn

Operating EBITDA margin

29% (34% in Q4 FY25)

PAT before exceptional items : Rs. 153 Cr (-16%YoY)

FY26 Financial Highlights

Revenue from Operations

Rs 3,739 Cr (3% Y-o-Y)
~USD 419 Mn

Operating EBITDA margin

25% (29% in FY25)

PAT before exceptional items : Rs. 380 Cr (-20% YoY)

Syngene – Putting Science to Work

Partner in innovation: #Putting Science to Work

Who we are and what we do

We aim to be a world class partner delivering innovative scientific solutions for clients

We offer integrated solutions across research, development and manufacturing

Sector expertise include pharmaceuticals, biotech, nutrition, animal health, consumer goods and specialty chemicals

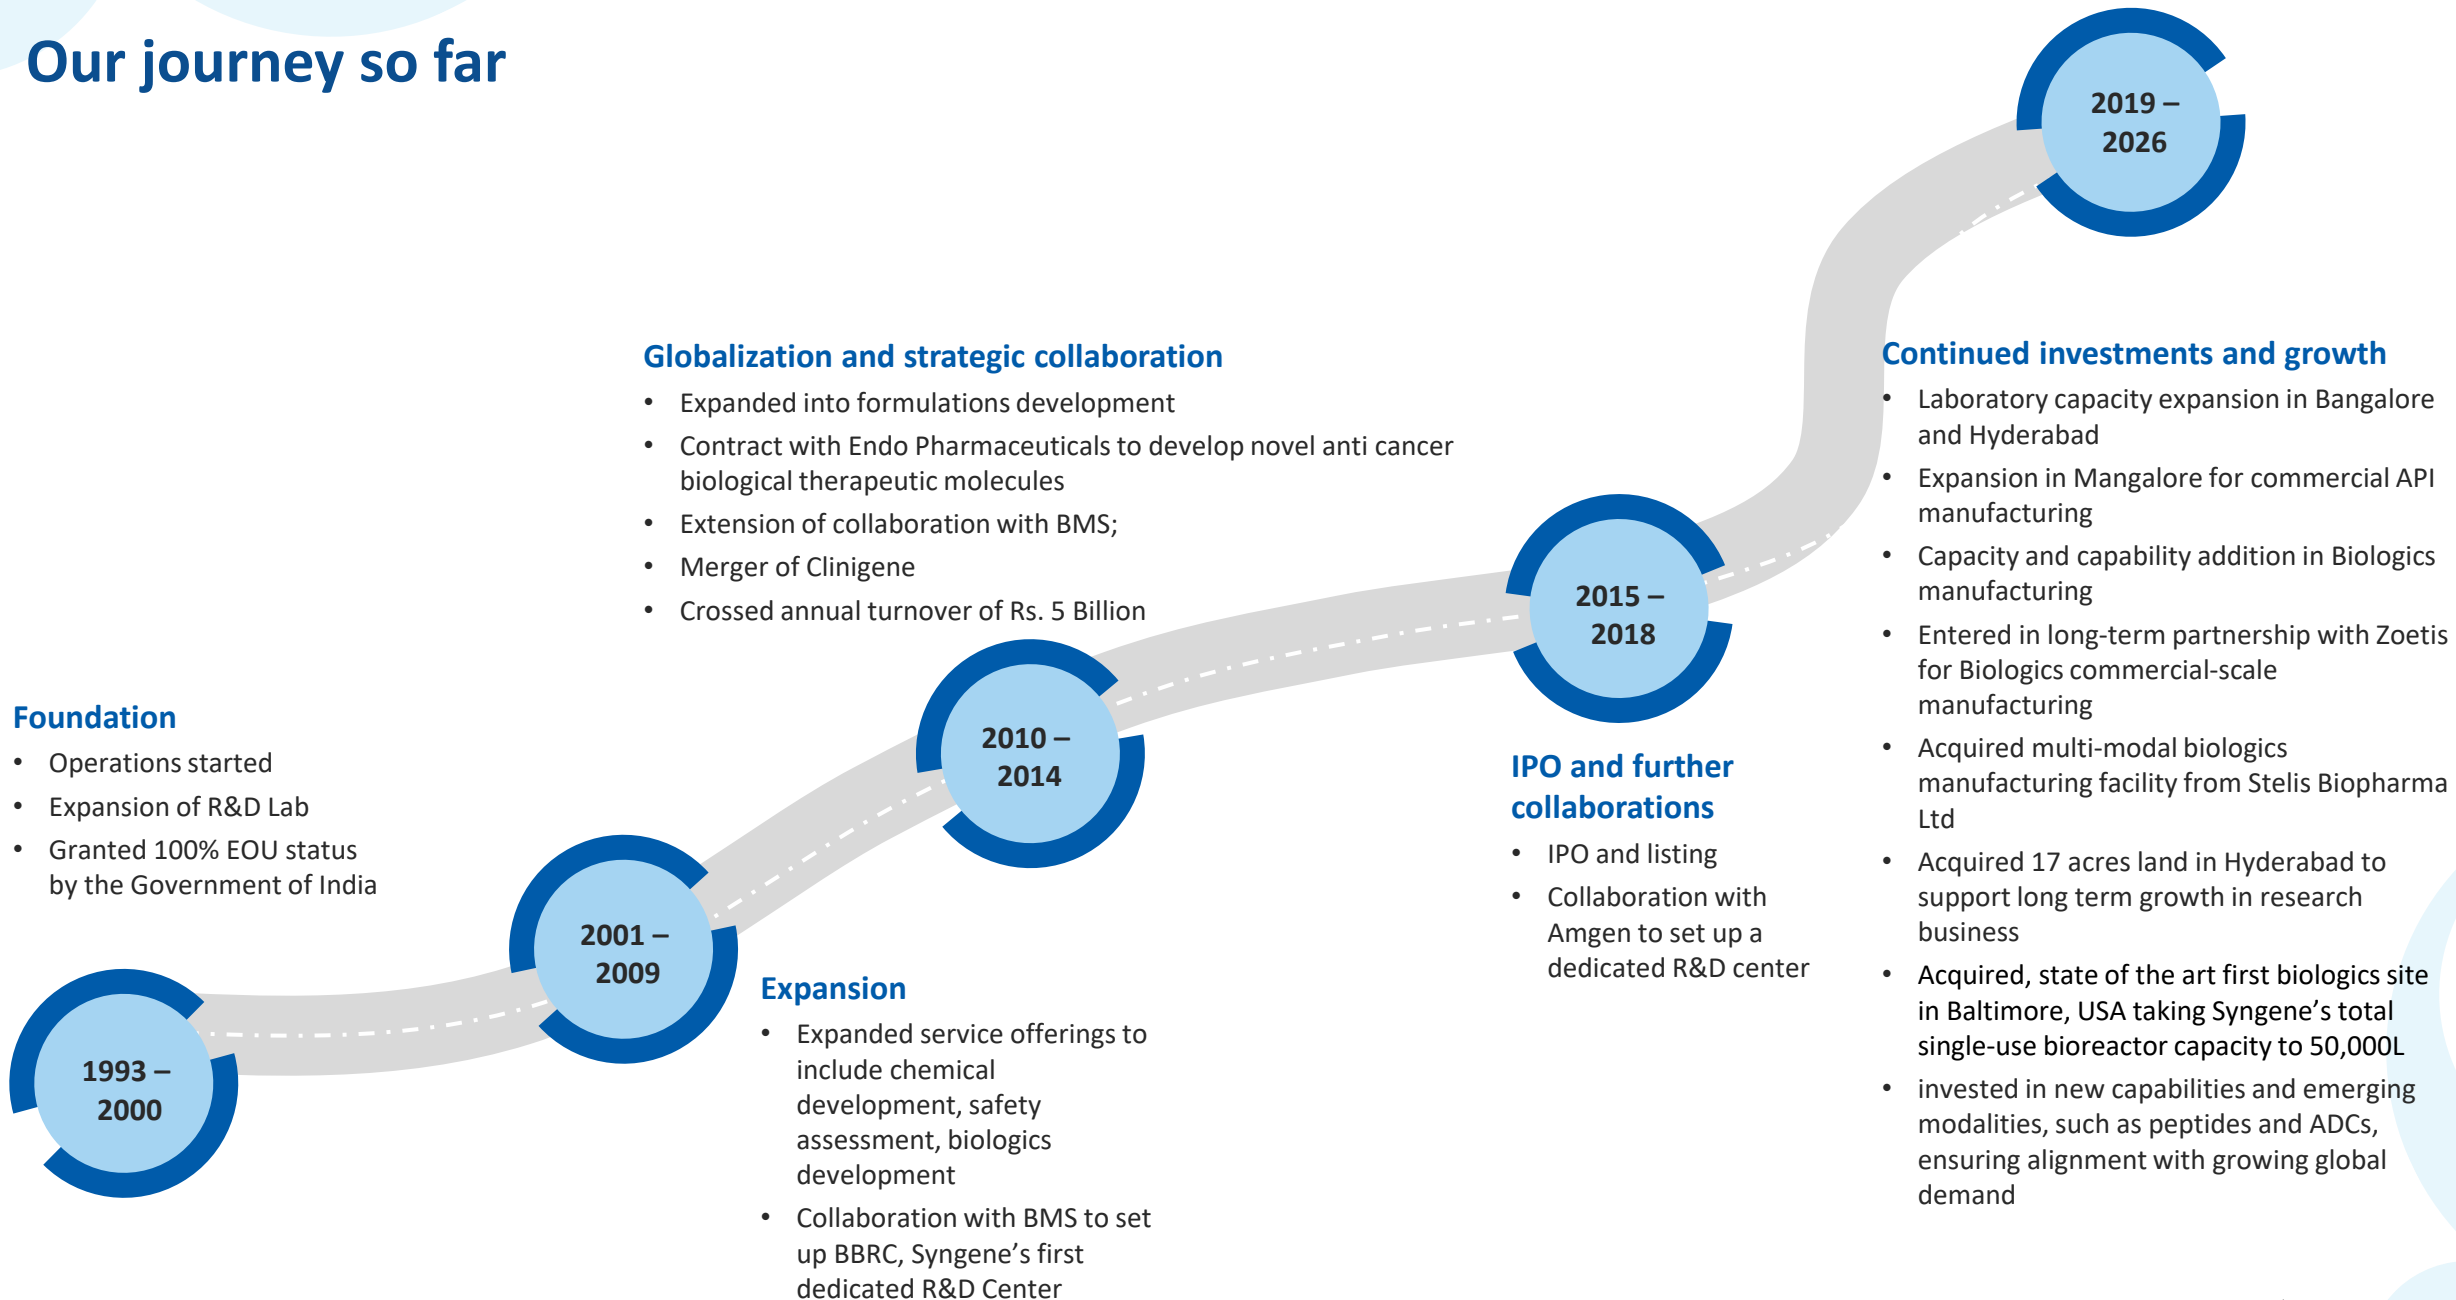

Our team includes more than ~5,700+ scientists out of total 8,300+ headcount, operating across 4 global state-of-the-art campuses located in India's leading life science hubs: Bangalore, Mangalore, Hyderabad and USA (Baltimore)

Established track record in discovery research and development/ manufacturing for small and large molecules

Our journey so far

Key facts and figures

~400
active clients

16 out of top **20**
pharma companies are
clients

400+

**before exceptional items

Syngene – one of the largest integrated CRDMO players in India

One-stop platform for integrated drug discovery, development and manufacturing across modalities

Expanding capacity

(in Million sq. ft.)

More than tripled the infrastructure that is qualified to meet international standards

- Expanded laboratory capacity in Bangalore and Hyderabad
- Expanded to Mangalore for commercial API manufacturing
- Acquired land in Hyderabad for long term growth in research business
- Acquired multi-modal biologics facility from Stelis Biopharma Ltd
- Acquired first biologics site in the USA from Emergent Manufacturing Operations Baltimore, LLC
- US FDA, EMA, UK VMD, Health Canada, PMDA approved, AAALAC accredited and GLP certified facilities

Building capabilities for future

(#)

Over 2.5x employees from FY16 comprising talented scientists

- ~5,700+ scientists comprising PhDs, MS
- Skills and experience to become trusted thought partner in cutting-edge research
- Scientific prowess across modalities including small molecule, large molecule, peptides, oligonucleotides, antibody drug conjugates, PROTACs
- Proven success in delivering integrated CMC programs and clinical candidates

Building partnerships

(#)

Over 50% increase in active clients

16 out of top 20 pharma companies are clients

- Expanded partnerships with big pharma and emerging biopharma
- Expanded into commercial manufacturing in Biologics with Zoetis
- Enhanced BD presence across key value clusters including US and Europe
- 25-year strategic partnership with BMS – established BBRC, India's first and largest dedicated R&D center

3-pronged growth strategy across diversified platform

Research Services (CRO)

Discovery Services

Flexible Platform with capability across multiple modalities including small molecule, large molecule, peptides, oligonucleotides, antibody drug conjugates, PROTACs

SynVent - proprietary platform for Integrated Drug Discovery

SARchitect- proprietary platform for data visualization and analysis. Enables collaboration between scientific experts across geographies

Dedicated R&D Centers

Ring-fenced infrastructure for exclusive operations for an individual client

Dedicated multi-disciplinary team of scientists

Access to entire Syngene ecosystem for specialist research and development operations

T&CR

Comprehensive research services through trials conducted on both healthy volunteers and patients

- Human Pharmacology Unit (Phase I/BE studies)
- Clinical Trial Services – full solution provider for conducting global trials
- Translational services- a continuum from preclinical to clinical trials
- Regulated bioanalysis for large and small molecules
- Central Laboratory

Large Molecule CDMO

Process development

Manufacturing of large molecules for clinical/commercial supplies

Associated services to demonstrate the safety, tolerability and efficacy of the selected drug candidate

cGMP-compliant facilities

State-of-the art Biologics manufacturing facilities with international presence

Small Molecule CDMO

Drug substance and drug product development

Associated services to demonstrate the safety, tolerability and efficacy of the selected drug candidate

cGMP-compliant manufacturing of clinical supplies, and registration batches for small molecules

Manufacturing of small molecules for commercial supplies

State-of-the art API manufacturing facility

Our Strategy

Research Services

Provide an integrated end-to-end therapeutic discovery services Encompassing drug discovery, pre-clinical and clinical development capabilities across technologies, platforms, disciplines, disease areas and therapeutic modalities.

Development and Manufacturing Services – Large Molecules

Implement a comprehensive strategy for biologics development and manufacturing, establishing a seamless, one-stop-shop capability that covers everything from drug discovery to commercial production.

Development and Manufacturing Services – Small Molecules

Utilize existing Chemistry, Manufacturing, and Controls (CMC) capabilities and commercial manufacturing, while also developing innovative technologies, to establish a fully integrated, cutting-edge small molecule development and manufacturing service provider

Operational Excellence

Drive operational excellence through improved reliability, speed and efficiency to enhance customer delivery and satisfaction.

People

Build a future ready, high-performance organization by nurturing leadership at all levels, fostering holistic employee well-being, and driving a culture of continuous growth and innovation

Environmental, Social and Governance (ESG)

Syngene is committed to responsible and sustainable growth, ensuring that its ESG standards meet the evolving expectations of clients, investors, and stakeholders. Our ESG strategy is a key enabler of long-term value creation, embedding environmental stewardship, social responsibility, and robust governance across all aspects of our operations

3

Syngene strengths

Syngene strengths

A global scale CRDMO player

- Integrated Drug Discovery, Development and Manufacturing service provider
- Small and large molecules, ADCs, oligonucleotides
- Listed on Indian Stock Exchanges (NSE and BSE)

Solutions through innovation

- IP fully assigned to clients
- Track record of data management and security
- Over 400+ patent filings by clients recognizing Syngene scientists

Quality matters

- Fully digitized quality organization
- Strong compliance track record with global regulators
- US FDA, EMA, UK VMD, Health Canada, PMDA approved, AAALAC accredited and GLP certified facilities
- 85 client and regulator audits in the last financial year

Science in our DNA

- Global presence : India life science hubs: Bangalore, Mangalore and Hyderabad & Baltimore, USA
- ~5700+ qualified scientists including ~500 PhDs (8,300+ total headcount)
- Resilient supply chain management
- 3 Mn+ sq. ft world-class R&D and manufacturing infrastructure

Blue chip client list

- ~400 active clients
- Partnering with large / mid-size / emerging biopharma and other industries
- Clients concentrated in US, Europe & Japan
- Track record of working with diverse industry sectors

Making a difference

- Partnerships have delivered numerous clinical candidates
- Delivery history for integrated CMC programs up to clinical trials and beyond

Experienced workforce: building capabilities and careers

8,373 total headcount

5,778 scientists delivering high quality solutions – create a competitive edge

7% PHDs

Inspiring technical excellence and providing opportunities to grow

Empowering our workforce

- **Thrive360 operating philosophy** embedding wellbeing into how work is designed and delivered - supporting physical, mental & emotional, social, financial and career wellbeing
- **Future-focused performance and career conversations** that build capability, clarify growth pathways and strengthen engagement and retention

Continuous learning & development

- **Enterprise-wide leadership and manager capability development** to build strong people leadership and succession depth
- **Scientific skills development** to standardise and advance scientific and technical upskilling across the organization
- Supporting **talent stability and execution** continuity during a demanding operating environment

Shaping a culture of belonging

- **Inclusive culture** broadening access to scientific and leadership talent
- **Diverse teams** strengthening innovation and problem-solving
- **27%** women representation overall and **19%** women in senior management

All figures are as on March 31, 2026

Extended our state-of-the-art infrastructure & new capabilities with global presence to meet our strategic partners needs

HQ campus at Bangalore, India

90 Acres where most of Syngene's capabilities are housed today

Biologics
Discovery development & and manufacturing plants in Bangalore, India

Fully functional R&D Centre at Genome Valley, Hyderabad, India

Genome Valley, Hyderabad, India

API manufacturing
Commercial manufacturing to support product launch located at Mangalore, India

USA based Biologics facility

Bayview, Baltimore, USA

We currently operate a range of successful collaboration models

Dedicated R&D Labs

- Customers receive ring-fenced infrastructure customized to their research needs
- Dedicated scientific and support teams work exclusively on the customer's projects
- Long-term strategic partnerships, typically extending for five years or more, foster deep collaboration and sustained innovation

Full time equivalent (FTE)

- A dedicated team of scientific personnel from predefined disciplines works exclusively on the customer's projects
- Deliverables and team composition evolve as the project progresses to align with changing requirements
- Agreements are typically renewed annually, ensuring continuity and flexibility

Fee For service (FFS)

- Services are provided within a defined scope
- Flexible, on-demand personnel and research infrastructure are allocated to meet project objectives
- Engagements can be short-term or long-term, based on project requirements

Risk / Reward Model

- A milestone-driven approach covering a portfolio of research projects
- Customers benefit from reduced upfront costs, with payments tied to predefined success milestones

Outcome – based model with Service Level Agreement

- A contract structured around the achievement of predefined outcomes
- Linked to specific productivity goals to ensure performance-driven results

... and are open to any single or combination of above

Our experience spans multiple industry segments and partners us with global leaders across the world...

The infographic displays six industry segments, each with a list of partner logos:

- Large & Mid-Sized BioPharma:** Bristol Myers Squibb, GSK, sanofi, NOVARTIS, AMGEN, MERCK, Boehringer Ingelheim, Baxter.
- Emerging BioPharma (EBP):** Albireo (AN IPSEN COMPANY), AMPHISTA THERAPEUTICS, Genmab, ASCENEURON, PharmAust LIMITED, saniona, C4 Therapeutics.
- Animal Health:** IVOES ANIMAL HEALTH, Phibro ANIMAL HEALTH CORPORATION, zoetis, Elanco, MERCK Animal Health.
- AgroChem:** FMC, Dow Dow AgroSciences.
- CPG:** Givaudan, PURINA.
- Chemicals/Polymers:** Essilor, Beiersdorf, KRATON.

Operational robustness driving strategy execution

Continuous improvement embedded through a structured Lean Six Sigma framework

Certification pathway from White Belt to Master Black Belt
90+ Green Belts and 60+ Black Belts driving operational excellence
10+ Master Black Belts anchoring enterprise-level transformation

Quality management system: digitized and audit-ready

85 customer and regulator audits in the last FY
6 successful USFDA audits in the last 5 years

Client-focused commercial organization

Leaders based in the US, Europe, UK and Asia close to client locations

Focused execution through strong Project Management

Structured program management for executing client projects enabled by SynPro platform and SynPro Academy ensuring delivery of client projects

Digital as a differentiator

AI capability in all research teams
Integrating automation, IT solutions, and data analytics, we optimize workflows, enhance resource allocation and utilization, and ensure regulatory compliance

Strategic Sourcing that makes a difference

Effective global collaboration with 2,800+ suppliers across 30 countries

Building a resilient supply chain amid geopolitical uncertainty through robust logistics network, dual sourcing strategy, and domestic supplier development for critical raw materials.

Syngene digital initiatives aimed at driving innovation and operational

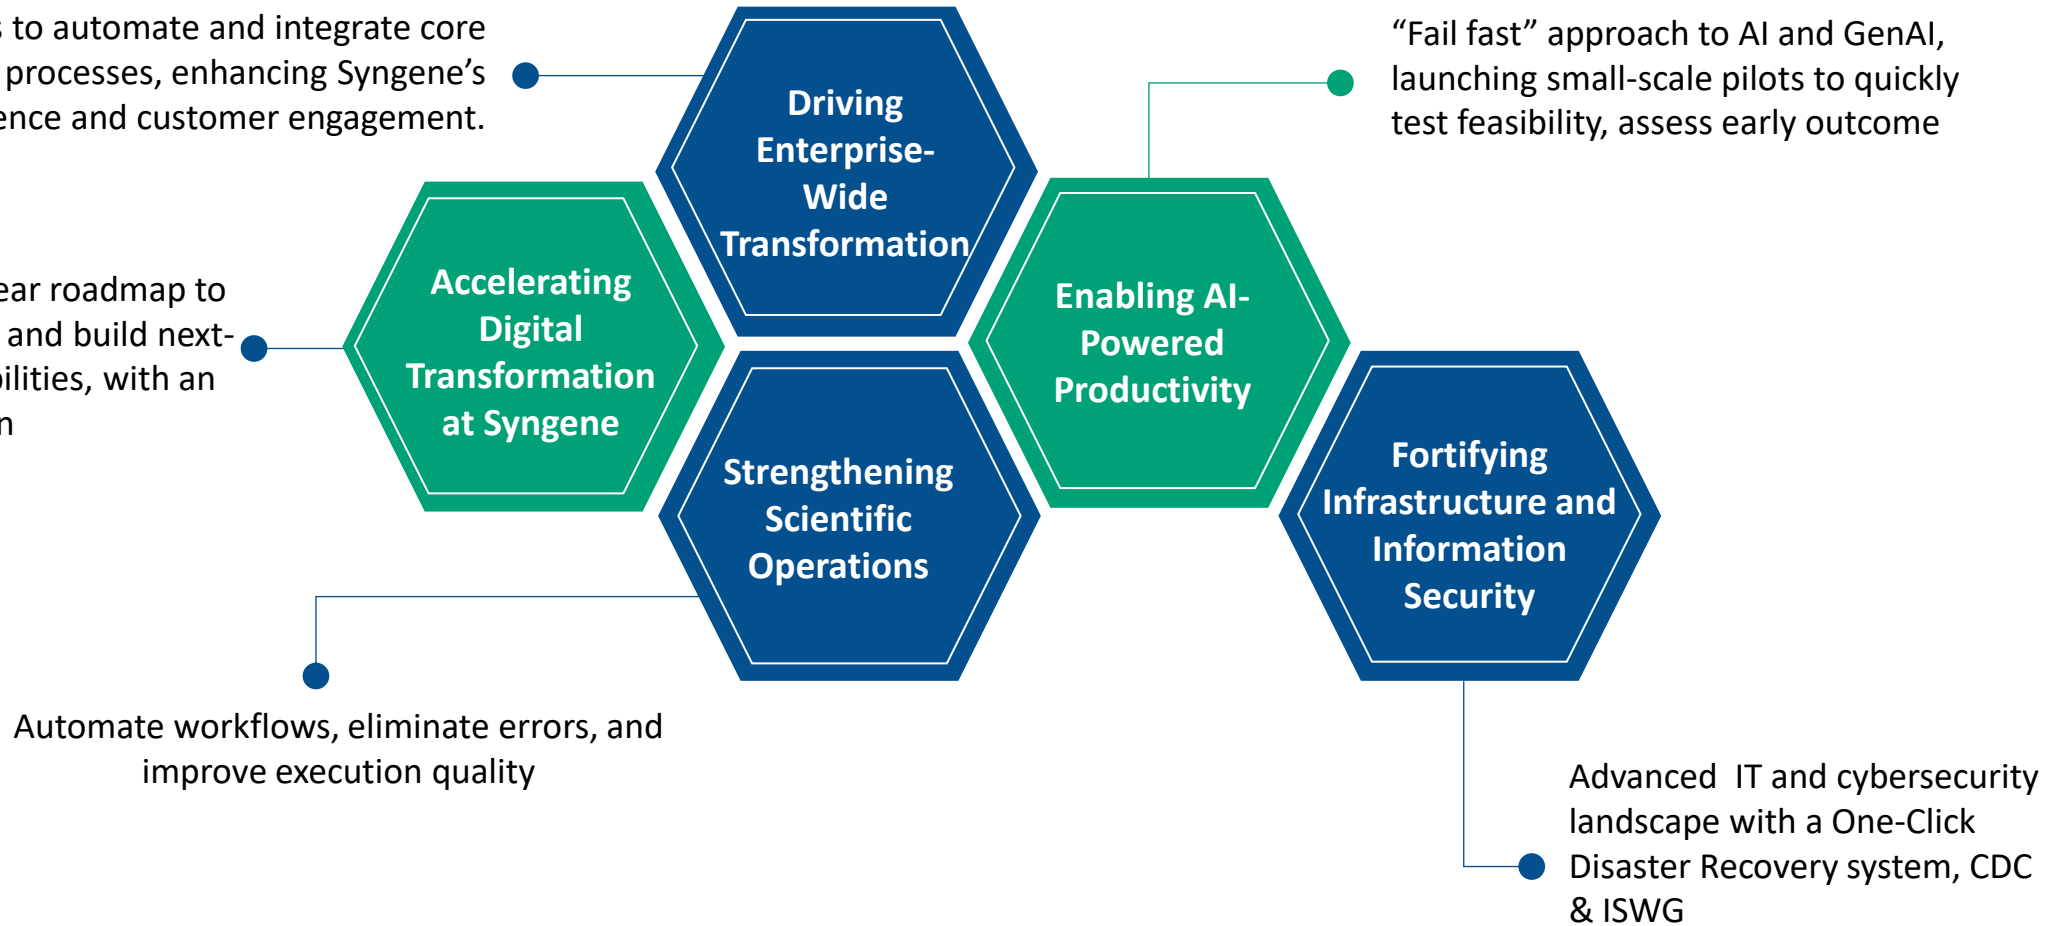

At Syngene, IT strategy is closely aligned with organizational priorities, emphasizing investments in automation and digitization to improve scientific and enterprise functions.

Certification as per ISO 13485:2016, ISO/IEC 27001 and ISO 9001:2015 requirements

Initiatives to automate and integrate core business processes, enhancing Syngene's digital presence and customer engagement.

"Fail fast" approach to AI and GenAI, launching small-scale pilots to quickly test feasibility, assess early outcome

Comprehensive 1-3-5-year roadmap to future-proof operations and build next-generation digital capabilities, with an emphasis on AI adoption

Committed to safety and sustainability

Safety is our first priority

- Accredited with ISO 45001:2018 for Occupational Health and Safety (OH&S) measures
- Risk assessments are an integral part of our operation
- Kavach, our flagship safety program, has delivered improvement in safety metrics and drives focus on industrial safety for all employees
- Lost time injury frequency rate (LTIFR): 0.00
- 36,737 hours of EHSS training

Proud to be recognized by TIME Magazine and Statista as:

- **World's Most Sustainable Companies 2025**
- **World's Best Companies in Sustainable Growth 2026**

ESG Rating Performance

ESG Rating Agency	FY25	FY24	FY23
EcoVadis	Silver (91 st percentile)	Silver (86 th percentile)	Bronze (65 th percentile)
CDP	B (Water Security) B (Climate Change)	B (Water Security) B (Climate Change)	D (Water Security) C (Climate Change)
Sustainalytics	14.7 Low Risk	15.6 Low Risk	12.4 Low Risk
MSCI	A	BB	BBB
DJSI	76	50	N/A

Committed to environmental protection

- Committed to Science-based targets for greenhouse gases
- 95% of total hazardous and non-hazardous waste recycled
- 92% of energy procured from renewable energy sources
- 1,296 MT equivalent CO2 savings from energy conservation
- 73,313 tCO2e of GHG emissions avoided
- 64% YoY freshwater savings achieved
- 1,04,413 KL fresh water saved from recycling, reusing and rainwater harvesting
- 11,433 KL rainwater harvested

Shareholding and Share Information

Syngene and Biocon Group

Syngene

Syngene is an operationally independent publicly listed subsidiary of Biocon Limited, established in 1993 as India's first Contract Research Organization. The Company has 30+ years of experience in novel molecule discovery, development and manufacturing services

Biocon Limited, founded in 1978, is an innovation-led global biopharmaceuticals company and has majority holding in key operating entities including Syngene

Syngene

Integrated services:

- Research Services
- Development and for
- Manufacturing small/large molecules

- Product Based
- Biosimilars
- Formulations and Compounds
- Alternative Therapeutic Drugs
